ZEOS™

Zimmer Biomet Endoscopic Optical System

Meeting The Needs Of Your OR Staff

At Zimmer Biomet we are committed to providing state of the art equipment to meet the needs of our medical partners. ZEOS delivers on this commitment with an end-to-end 4K UHD, multi-specialty platform that allows for customized profiles for physician preferences. Within the system is a 3-in-1 camera control unit for data management, image processing and LED light generation. ZEOS 4K Camera heads are FDA cleared for autoclavable and STERRAD® cleaning cycles.

Surgeon

- Experience **4x the resolution with true 4k** from the scope tip to the image on the monitor
- **Customized profiles** to store images and button preferences
- Four **programmable** camera head buttons

Supply Chain

- **3-in-1 camera control unit** offers cost saving and space reduction opportunities
- **Multi-specialty** platform to address your clinical needs
- **Autoclavable** Camera Head

Circulating Nurse

- Wireless **tablet integration** designed for efficient workflow
- Ability to import and front load procedural data

Sterile Processing

- Designed for Camera Head **autoclavability**
- Sterilization trays for the camera head and scopes provide **protection for your capital equipment**

4K UHD Camera Control Unit and Integrated Tablet

3-in-1 Camera Control Unit

- 4K UHD Image Processor
- LED Light Source
- Image & Video Capture Device

Convenient Tablet System

Customizable image and data management is at your fingertips with an easy-to-use tablet. Physician preferences can easily be achieved through the profile creation process.

Camera Control Unit and Tablet Touch Screen Interface

Access camera controls for adjusting the enhancement level, light level, zoom and white balance. To optimize camera performance, surgical specialty can also be selected.

Camera Heads, Scopes and Accessories

4K Autoclavable Camera Head

The ZEOS camera heads are FDA cleared for autoclavable and STERRAD® cleaning cycles. They also have four fully programmable buttons with the ability to control the LED light source, image management functionality and access to video settings.

True 4K Resolution

Experience 4x the resolution, improved color reproduction, increased depth perception and precise color via an end-to-end 4K platform.

Scopes and Sheaths

A comprehensive portfolio of scopes and sheaths is available to accommodate your clinical needs.

Light Guides

To deliver light to the field, two light guide options are available, as well as three connection options.

Carts and Monitors

Cart Flexibility

Carts include customizable shelving to enhance OR efficiency. Each cart comes standard with a pull-out drawer for convenient accessory storage. All cart options can hold either a 31-inch or 26-inch ZEOS monitor. To ensure electrical safety in the OR, isolation transformers come standard with all carts.

Monitor Options

Surgical images will be displayed in 4K UHD on the 31-inch monitor. A 26-inch monitor is also available in HD.
